

SUMMARY

Results-driven **Full Stack Developer** with **3.5+ years** of experience building scalable, **high-performance** applications for international clients, skilled in **React.js, Next.js, Node.js, Nest.js**, and modern databases including **MongoDB, DynamoDB, MySQL**, and **MSSQL**, with hands-on expertise in serverless architectures using **AWS** (EC2, Lambda, API Gateway, S3, DynamoDB), **AI model integrations**, real-time systems using **WebSockets**, and microservices-based architectures, delivering performance-driven and scalable solutions.

EXPERIENCE

Software Engineer

Narsun Studios

- 08/2025 - Present [Lahore, Pakistan](#)
- Built **full-stack applications** using MERN stack and NestJS, serving **over 5,000 users** across multiple modules.
 - Integrated **AI model APIs**, enabling automated features that reduced manual processing time by **30%**.
 - Optimized application performance, **improving page load speed by 25%** and responsiveness across modules.
 - Implemented **clean, maintainable, and scalable code** following best practices, improving team development efficiency.

Software Engineer

SpyreSync

- 03/2024 - 07/2025 [Lahore, Pakistan](#)
- Delivered **serverless applications** using AWS Lambda, API Gateway, and DynamoDB, supporting **~10,000 daily requests**.
 - Led MERN stack development (React.js, Next.js, Node.js), delivering **3 major product modules** on time.
 - Built **responsive, user-friendly interfaces**, boosting client engagement by **20%**.
 - Enhanced AWS workflows, improving **deployment efficiency by 40%**.

Full Stack Developer

Assian Solution Pvt.Ltd

- 09/2022 - 02/2024 [Lahore, Pakistan](#)
- Developed high-performance MERN stack applications for **5+ client projects**, ensuring on-time delivery.
 - Built **modern interfaces with React.js/Next.js**, improving user satisfaction scores by **15%**.
 - Delivered **robust database solutions** across MongoDB, MySQL, MSSQL, supporting complex app requirements.

PROJECTS

Smart HR

Developed a cloud-based HR management system with serverless architecture using AWS Lambda and DynamoDB for efficient, scalable backend processing. Built a React.js frontend to provide an intuitive and seamless user experience for managing employee records, payroll, and HR tasks.

Dream House Builder

Built a MERN full-stack application with NestJS backend, integrating AI APIs to deliver intelligent, scalable, and high-performance functionality for an enhanced user experience.
